

Jeff D'Andrea's T-28

MAD DOG

IPMS Boise **MONTHLY**

August 2014-Volume 14, Number 8

Editor's Notes

The Nationals were held earlier this month and the good news appears to be that attendance was quite good. The bad news is that no club from the west made a bid for the 2016 Nats. It will return to the east coast to Columbia, S.C. I had heard rumors that IPMS Seattle MAY bid for the 2017 convention. No holding breaths sports fans! So we still have the regional shows to go to if you are not financially predisposed to head east.

Life's too short to not build!

Livet er for kort til ikke at bygge!

The Scuttlebutt

At the May meeting, I mentioned that Arlen has been giving some of his free time in exchange for the use of the facility that we are using for our meetings. To alleviate the burden I suggested that the club make a donation to the organization to which the building belong. Donations could be made biannually and depend of the funds that we have available. At the May meeting there were no negative vote concerning this subject therefore I believe that it is the correct thing to do in this case.

I have evaluate the possibilities of other meeting places, all come with substantial cost for leasing a room. Also none provide a certainty of dates availability. Indeed we are extremely lucky to have a spacious meeting room that is consistently available at regular meeting schedule, and ample parking being provided.

Hobby Town use to provide a room for our meeting, but more than once we got displaced because of other club requirement. Finally we got displaced to make room for puzzles, Silly Putty, etc.. HT did make an offer for meeting but again it has no appropriate space and not enough sitting room, even less display space for our models. And again , no certainty we could meet at our schedules times. Other meeting places such as the library at the Mall where disastrous when parking was involved. We had meeting in building of some business but again those were stop gap measures and did not lasted but for a few meeting until for one reason or another we had look for another place. The Military Museum did offer a room for meeting but rescinded their offer we a new CO took over.

Not everyone was present at the May meeting but everyone opinion is important. So if you have concerns or any questions please feel free to contact me through my email. I do not plan to spend endless hours debating this subject at the August meeting. By adopting voluntary contributions we have better control of our budget.

Modeling is a solitary hobby and the only time we can share our creations and discuss our hobby is at our monthly meeting. Many of us have learned much and improved our skills because of those meeting and this is only possible because we have a spacious and comfortable place to meet.

See you at the meeting..

John
